SUMMARY

Business and Data Analyst with **3+ years** of experience driving data-informed decision-making through requirements analysis, process optimization, and advanced analytics. Proficient in **SQL**, **Python**, **Excel**, **Tableau**, and **Power BI** to build dashboards, **KPI** reports, and predictive models that improved operational efficiency by up to **40%**. Strong experience partnering with stakeholders, supporting **Agile** delivery, and translating complex data into actionable business insights in fast-paced environments.

PROFESSIONAL EXPERIENCE

University of Massachusetts Amherst — Amherst, MA

Business and Data Analyst — Feb 2024 - Dec 2026

- Drove end-to-end business process analysis and optimization using **SQL, Python, and advanced Excel**, delivering actionable insights that improved operational efficiency by **25%**.
- Led comprehensive requirements **elicitation** and documentation efforts (BRDs, functional specifications, user stories) in close collaboration with cross-functional stakeholders, increasing project delivery accuracy by **30%**.
- Architected and automated enterprise-grade **dashboards and KPI** reporting solutions using **Excel, Tableau, and Power BI**, reducing manual reporting effort by **40%** and enabling self-service analytics.
- Executed strategic, **performance, and trend analyses** across multiple **high-impact initiatives**, supporting leadership decision-making and accelerating turnaround time for critical business decisions.
- Served as a trusted analytics partner to academic and administrative teams by ensuring **data integrity, reporting accuracy**, and clear communication of **insights** to non-technical stakeholders, driving adoption of data-driven practices.

HCL TECH — Bangalore, INDIA

Business Analyst — July 2022 - Jan 2024

- Led end-to-end business and functional **requirements analysis** for enterprise software upgrade initiatives, ensuring alignment between client objectives, technical feasibility, and delivery timelines.
- Built and maintained **data models, dashboards, and analytical reports** using **SQL and Tableau**, enabling data-driven decision-making across cross-functional teams.
- Supported **Agile delivery cycles** by facilitating sprint planning, backlog refinement, and **retrospectives**, contributing to timely and high-quality solution delivery.
- Partnered with **business stakeholders** and technical teams to prioritize features, resolve issues, and improve system usability, while driving process improvements that reduced reporting turnaround time by **25%**.

SKILLS

Data Analysis: SQL (CTEs, Window Functions), Python (Pandas, NumPy), Excel (Pivot Tables, Power Query, Power Pivot), SAS

Business Intelligence: Tableau, Power BI (DAX, Power Query, Data Modeling), Dashboard Development, Data Visualization, KPI & Executive Reporting

Business Analysis: BRD/FRD, User Stories & Acceptance Criteria, Requirement Gathering & Prioritization, Stakeholder Communication, Process Mapping, Change Impact Analysis

Predictive Modeling: Descriptive & Inferential Statistics, Regression Analysis, Time Series Forecasting, Classification Models, Trend, Variance & Cohort Analysis

Databases: MySQL, PostgreSQL, SQL Server, Oracle, Data Modeling (ER Diagrams, Star/Snowflake Schemas), DBMS

Cloud & Platforms: Microsoft Azure (Azure SQL, Data Storage, Reporting), Salesforce (CRM Analytics, Data Extraction)

Project Management: Agile & Scrum Methodologies, JIRA, MS Project, Asana, SDLC Support

Tools & Platforms: Microsoft Office Suite (Excel, PowerPoint), SAP (Reporting & Data Extraction), Confluence

EDUCATION

Master of Science in Business Analytics — 2024 – 2026

University of Massachusetts — Amherst, MA

Bachelor of Technology in Information technology with Minors in AI and ML — 2019 – 2023

Jawaharlal Nehru Technological University — Hyderabad, India

CERTIFICATION

- **Graduate Certificate in Project Management – University of Massachusetts Amherst** — **Feb - 2026**
